

GENDER IMPACT ASSESSMENT APP

Mitchell Shire Council has produced a Gender Impact Assessment App that is the first of its kind in Local Government!

Mitchell Shire's Gender Impact Assessment App is a new and innovative way for Councils and other organisations to undertake Gender Impact Assessments to meet obligations under the Gender Equality Act 2020.

The App is accessible on phones, laptops and tablets. It takes users through a series of steps providing helpful information to successfully complete a Gender Impact Assessment.

The Mitchell Shire App can be easily shared with any Council or organisation using Microsoft 365 and can be customised to suit any organisational structure or workflow approval processes.
